3M™ Diamond Grade™ Conspicuity Markings Series 983

Keeping vehicles visible

Nighttime visibility you can count on. 3M™ Diamond Grade™ Conspicuity Markings Series 983 are bright and durable, helping drivers avoid incidents and accidents night after night.

With an easy-to-install, yet high-performance adhesive, these markings keep your trucks and trailers visible for the long-haul. The vivid colours and high reflectivity are protected by an 8 year warranty. That's safety you can count on.

Protecting drivers is what drives us.

For over 75 years, 3M products have made roadways safer. Long-standing scientific collaboration on microprismatic markings has produced traffic safety products that help you see clearly when it counts. 3M™ Diamond Grade™ Conspicuity Markings Series 983 help advance safety at all hours.

Safety in sight.

Bright vehicle markings give drivers the information they need to make quick, accurate decisions. The high reflectivity and wide angularity helps to ensure superior brightness and increase safety. The vivid colors and bright whites mean trucks and trailers are visible at all hours and Series 983 meets or exceeds ECE104 regulations.

Easy application.

Strong and rigid with a high performance adhesive that sticks securely to trucks, trailers, and other large vehicles. The easy to remove liner makes installation quick and user friendly.

Withstands the weather.

The corrosion-resistant material helps your vehicle markings resist weathering and aging, and is protected by an 8 year warranty for long lasting peace of mind.

3M™ Diamond Grade™ Conspicuity Markings Series 983
